THE ODDS ARE IN FAVOR OF "SERVICE"

S OME OIL COMPANIES have embodied in them certain ele-ments of SUCCESS which may almost be regarded as a guarantee of their future.

"SERVICE" is just such a company. "SERVICE" can be depended upon to make the GREATEST POSSIBLE USE of these elements of SUCCESS to ACHIEVE the desired result for itself, as a company, and for its STOCKHOLDERS as INDIVIDUALS.

"SERVICE" has the RIGHT KIND of acreage-and PLENTY OF IT. "SERVICE" has CLEAN, KEEN, CAPABLE MANAGEMENT that has UNUSUAL SUCCESS in the OIL BUSINESS to its CREDIT. "SERVICE" has the ABILITY and the CAPITAL to carry on an EX-TENSIVE DRILLING CAMPAIGN—It will not stand to WIN or LOSE on ONE WELL.

As to "SERVICE" STOCK-the fact that there is practically a NATIONWIDE DEMAND for it, seems a clear assurance that there will be a CONTINUOUS and ACTIVE market for it.

If you do not ALREADY OWN some "SERVICE," better fire in your ORDER NOW. If you DO own some, better "sweeten up" your order while you have the chance. THE OPPORTUNITY will be short lived, to buy at \$1 PAR and "NOW" is the time that COUNTS.

"Service Is Our Middle Name"

IS "SERVICE" A SURE SHOT?

in the OIL BUSINESS I'd be very foolish to say that SERVICE" is SURE. But I WILL SAY that it LOOKS SURE and I'll say still further that I fully believe SERVICE will WORK OUT in SUZE SHOT style.

I believe that SERVICE will be properly managed; I believe that SERVICE will produce OIL and produce a LOT of IT. I believe SERVICE will pay GOOD DIVIDENDS and I believe that it will prove a PROFITABLE stock on the OPEN MARKET; I believe the element of "GAMBLE" is very

And ANOTHER THING I BELIEVE is that if you expect to GET any SERVICE stock that you had better hop right to it. You may look for a MIGHTY SUDDEN END of the SALES CAMPAIGN. SO WIRE ME NOW. PAR IS A DOLLAR.

REGRETS

Every day no hear somebody say that they had the chance of buying Ocean, or Ranger Central, or Homer Union at \$1.00 and didn't do it, and have been bicking themselves ever since for not grabbing the opportuni

You have heard them too, and you know the only reason they talk this way is because they were seared to risk a dollar or two. Look what they would have gained had they not been so timid. However, you can't fool them now, for they are sure centing in fast on this

IL CORPORATION

for they know that they have practically only one chance to buy it at por, and that is before the books are closed. They also know what the men back of it can and will do; they know that these men are bigger, better and broader than they were when they started Ocean, and that the chances of losing are not mear as great as they were in the past.

Suy, by the way, if you are one of the timid and hesitant, you had better make up your mind right name as the issue is sure going fast, and if you don't have done round and tell as what you might have done, after the company has paid a dividend or two, as they willsandoubtedly do. Just a tip;—we are no further away than the nearest telegraph office,
